Crittenton Center Building C

1531 Dick Lonas Rd.

Knoxville, TN 37909

Phone: (865) 602-2021

Fax: (865) 602-2039

Website: www.fcaknox.org

Agency Type: Non Profit

Clients Served: Female

Service Areas: Tennessee

TennCare: No

Services Provided:

- Inpatient to young pregnant women
- Assessments
- 12 Step groups
- Dual Diagnosis
- Relapse Prevention

Youth Inpatient

- Pregnancy Support and Education
- Aftercare
- On site school and GED program

Overview: A combination of traditional drug and alcohol treatment techniques with counseling and education provides clients with an individual program for treatment and support. The program provides special services to pregnant teens that have significant involvement with substance abuse to help break the intergenerational cycle. Emphasis is also put on aftercare follow up with the new mother.

SUBOXONE is the first opioid medication approved under DATA 2000 for the treatment of opioid dependence in an office-based setting. SUBOXONE also can be dispensed for take-home use, just as any other medicine for other medical conditions.

The primary active ingredient in SUBOXONE is buprenorphine.

Suboxone at the appropriate dose may be used to reduce illicit opioid use and help patients stay in treatment by suppressing symptoms of opioid withdrawal and decreasing cravings for opioids

The following is a list of physicians in the East Tennessee area that are certified to treat with Suboxone. For more information, please visit www.suboxone.com
